Subject: Addressing Suggestions from Students and Teachers in the Feedback for the
Academic Session 2022-23

Respected Sir,

We have gathered feedback from our engineering students and teachers during the academic year 2022-23. After analyzing the feedback, we have identified the following key points raised by our stakeholders:

- 1) Incorporating industry-based projects into practical sessions.
- 2) The allocated hours for the syllabus, as per the scheme, are insufficient.

We kindly request your attention to these remarks and seek your guidance in addressing these concerns.

Thank you for your time and consideration.

Yours sincerely,
